

Transfer Dynamics
Industrial Solutions

INDUSTRIAL FACILITY TRANSITION, WAREHOUSE RESET & OPERATIONAL SUPPORT

One accountable point of contact for facility turnover, inventory projects, specialty trade coordination, and process-improvement support.

REDUCE FRICTION

Facility / inventory /
labor / rentals

MOVE WORK FORWARD

Labor / rentals / disposal /
specialty trades

IMPROVE READINESS

Lease-ready / move-ready /
process-ready

CALL TDx WHEN...

- Industrial space needs to be lease-ready, reset, cleared, or turned over quickly
- Inventory must be transferred, staged, counted, verified, labeled, or repackaged
- Racking, fixtures, obsolete assets, or debris need removal
- Repair items require subcontractor or specialty trade coordination
- A process is labor-heavy, inefficient, equipment-constrained, or poorly configured
- Your team knows what needs to happen but lacks the bandwidth to manage it

CORE SERVICE AREAS

Facility Turnover, Decommissioning & Lease-Ready Reset

- Facility make-ready, operational reset, and punch-list support
- Non-structural demolition; rack, fixture, asset, and debris removal
- Disposal, recycling, rental equipment, and labor coordination

Warehouse Relocation, Inventory Transfers, Staging & Control

- Inventory transfers, consolidation, staging, and sequencing
- Labeling, repackaging, reboxing, and rework support
- Cycle counts, verification, and discrepancy documentation

Facility Repair & Specialty Trade Coordination

- Subcontractor and specialty trade quote / schedule / site-access coordination
- Concrete spalling, dock, door, bumper, painting, and patching coordination
- Punch-list tracking and closeout communication

Operational Flow, Labor & Equipment Efficiency Support

- Time studies, process observation, and value stream mapping support
- Pick / pack / staging / consolidation and work flow review
- Labor, equipment, material-flow, scanning, racking, robotics, and automation opportunity identification
